Katie, Manager, Payroll And Benefits, HR Team, Calgary

My experience at Shaw has been incredible. I came here five years ago for a job. And today, I'm working at Shaw in a career, following a path.

Support, mentorship and opportunity are some the words that come to mind when I think about my time here. Working in a place where people really care about your growth isn't a myth. You really do see it – and it's exciting to be part of.

What's cool is that I've been encouraged and allowed to stretch my wings. I've tried my hand in other roles and really got to find what I'm passionate about. And without the leadership, mentorship and guidance I receive on a daily basis, I would not be where I am today.

And today? I'm happy, balanced, growing, and achieving! And best of all, learning how to help others achieve all of this too!
