

DUSK

FAQs

Q: Why is DUSK no longer being offered?

A: Dusk's parent company (Corus Entertainment) has decided to discontinue the network. This network will no longer be an available channel after March 23, 2012.

Q: Why did Corus choose to shut down DUSK?

A: After a regular business review, Corus decided to make some strategic changes to their portfolio, including the discontinuation of DUSK. They believe concentrating on their proven areas of expertise is the most effective way to service their core brands. Corus remains committed to providing high quality, award winning programming for these audiences.

Q: What will I get in place of the DUSK channel?

A: In the Flicks Pack and Movies Pack, you will receive W Movies effective March 6 and W Movies HD effective March 22 (in select markets). Some DUSK programming will be moving to ABC Spark including: Da Vinci's Inquest, Scare Tactics, and Supernatural. Selected movie titles will also be moving to ABC Spark including Tim Burton's Corpse Bride, Beetlejuice, Edward Scissorhands and Fargo.

Q: Am I still paying for DUSK even though the service is no longer part of my package?

A: No. If you had DUSK as a pick and pay channel for \$3.95/month, effective March 23, 2012 you will no longer be charged for the channel. Your April invoice will reflect this change. The monthly rate of the movie theme packs DUSK was included in are NOT changing. The Movies pack will remain at \$10 per month and the Flicks pack will remain at \$7.95/month. These movie theme packs continue to bring great value.

Q: Where will I be able to find my favourite DUSK programming? Will it be available on another Corus channel or anywhere else?

A: We are unable to provide specific programming information at this time. Stay tuned to the network for programming updates. Their website will be a great resource for programming information.
