

# Shaw High Definition TV – Quick Reference Guide

Shaw HDPVR Remote

## For more information

**Shaw Remotes:** Press the **MENU** button, select "Shaw Remotes"

## How to program your Shaw Remote

- Step by step instructions are located on the back of the remote
- Or visit [urcsupport.com/shaw](http://urcsupport.com/shaw)

# HD Programming Guide

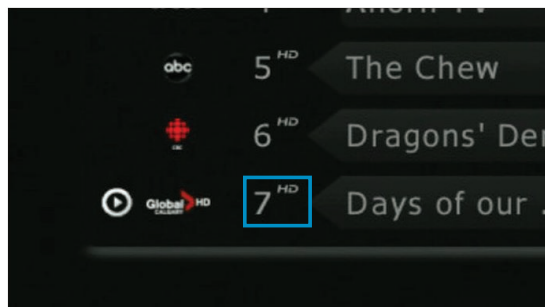

The on-screen programming guide is your source for finding out what to watch. Press **GUIDE** on your remote to access up to 14 days worth of TV Listings and TV on-demand content. The first press displays the Full Screen Guide, second press displays the Traditional Guide and the third press displays the Mini Guide.

## No need to search for the HD Channel anymore

**HD grouping:** You can adjust your settings to list all of your HD channels at the start of your channel listing.

## Auto HD:

When subscribed to both the standard definition (SD) and the high definition (HD) version of a channel, you will automatically receive the HD feed on the lower channel number. HD channels are indicated with an HD icon next to the channel number.

## Recording content

Press the **Record** button on your remote at any time while in the guide to record the highlighted program. You will be prompted to record a single episode or to set up a series recording.

To setup a Series Recording, follow the on-screen prompts. You can change your Series Recordings settings at any time. Press the **MENU** button on your remote, select "Recordings" and select "Series" from the tabs displayed.

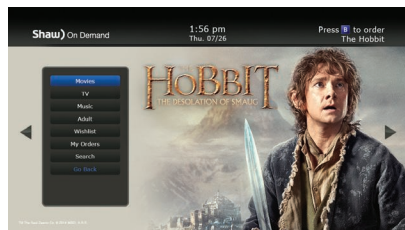

You can also select "Recordings" from the Main Menu to access your Recordings, Schedule, PVR Settings and more.

**Shaw)**

## On Now

- The On Now feature allows you to choose a specific type of programming by selecting one of the pre-set categories including Sports, Kids, News and Movies.
- When applying a specific On Now list, all current programming that is not included in the criteria is filtered out, so you only browse the programming you want to watch now.
- Access On Now by pressing the **FAV** or **MENU** button on your Shaw Remote and select a category.

## Shaw On Demand

The ultimate viewing experience.

- Access over 10,000 titles and 5,000 movies in HD with Shaw On Demand. Catch up on your favourite primetime

shows for FREE, up to 48 hours after they air

- To get started, press the **ON DEMAND** button on your Shaw Remote

## VOD Quick Launch

- If a channel has content available on Shaw On Demand, you will see an on-demand icon displayed to the left of the channel name in the guide . Press the Left **ARROW** to access on-demand content.

## Search

- Search for a specific program by actor, title or description.
- Press **MENU** on your remote and select "Search"
- Move the cursor with the **ARROW** buttons to spell what you're looking for. Press **OK** to enter each letter.
- Press the **RIGHT** arrow to advance to the results column. You can choose to view "TV Programs" or "On Demand" results
- Highlight the program you want to watch and press **OK**

## Main Menu

For easy access to all of your HD Guide features, press **MENU** on your remote and select from the options available - including Shaw On Demand, On Now, Settings and more.

**Note:** The intuitive **MENU** automatically adjusts, depending on the menu option you're in.

These options will appear in the Main Menu. Highlight and select an option with your remote and you will immediately access the area indicated.

## Recordings

Directly access your recordings, scheduled recordings, series management, PVR Settings and more.

## Shaw On Demand

Catch up on your favourite programs or watch a movie.
